

Carefree Ultra - giving your customers choice

On the back of the success of Carefree Twist, we're delighted to introduce Carefree Ultra. This new twist carpet range is manufactured in the same 15 on-trend colourways as Carefree Twist but weighs in at 48oz; making it a step up in quality and performance.

There has always been a strong demand for high quality twist carpets in both the retail and commercial markets and Carefree Ultra gives customers another choice when selecting the right twist carpet for them. The great thing about Carefree Ultra is that it can be offered in tandem with Carefree Twist to give customers a choice based on their needs and budget.

Durable and hard-wearing yet stylish, Carefree Ultra is suitable for any room and is tufted on tenth gauge machinery using a two-ply yarn for increased durability. That means whatever is thrown at it, Carefree Ultra can cope.

Just like its sister range, Carefree Ultra benefits from 100% bleach cleanable fibres and a 10-year wear and stain warranty which protects against any stain except gloss paint.

Featuring Combi-bac® - fault free backing

Carefree Ultra features our revolutionary soft backing, Combi-bac®, which is bringing a wealth of benefits to retailers, contractors, house-builders and consumers.

- No more delamination. Combi-bac®'s flexible nature means the risk of carpet separating from its backing is eradicated
- 6 times the yield of normal secondary backing
- Install friendly backing which reduces the chance of scuffing
- Minimised likelihood of creasing during transit
